Intercultural mediation and organisation of stays
for expats and their partners in Kaluga

Our services are designed for foreign companies who already have business contacts in Kaluga and plan short- or long-term stays for their workers and expats in Kaluga. We organise accommodation, transport in and around Kaluga, transfer of the airport in Moscow, town excursions with practical information about the future stay in the city, mediation of the Russian culture, introduction to the everyday life, mediation of contacts, lessons of Russian language to break the ice etc.

For the partners of expats with long term stays we have a special programme called "cultural mediation an integration - Kaluga" which is helping them with different cultural and social activities to integrate into the life in Kaluga and offers accessibility around the clock for everyday life questions and urgent problems.

We are Andrea Schild and Berno Z'Brun. Andrea Schild has a licentiate degree in slavic studies with the main subject Russian literature and minor subject anthropology. Berno Z'Brun has a bachelor degree in Economic and Business Administration and in primary school teaching.

We live since 2009 in Kaluga and are involved in different social projects and charitable foundations. We do intercultural mediation for expats and their partners. Beside that we organize voyages into the Russian province for European tourists, work as journalists and are active in cultural exchange between Russia and Switzerland by organising concert tours and language learning trips. Thanks to this different activities we are well linked with social and cultural institutions, universities and private organisations in Kaluga.

For over 15 years we intensely deal with Russia and it's culture and language and have acquired by our many-sided activities intercultural and language competences which we use for the work as cultural mediators. We speak fluently German, Russian, French and English.
